

# 2021 Plants for sale

Species	Layer	Quantity	Description
<i>Austrostipa verticillata</i>	Ground	28	Erect clumping plant to 1.5m, various soils, tolerates moist areas, v. hardy
<i>Brachycome multifida</i>	Ground	39	Neat plant 10cm x 40cm. Lilac flowers Spring & Summer. Full sun with reasonably well drained soil
<i>Chrysocephalum apiculatum</i>	Ground	4	Variable perennial herb, mostly spreading prostrate. Bright yellow flowers Spring & Summer. Most soils in sunny position
<i>Dianella revoluta</i>	Ground	2	Spreading perennial 45cm x 1.5. Dark blue flowers Spring, followed by edible blue berries
<i>Eremophila glabra</i> 'Kalbarri Carpet'	Ground	3	Prostrate plant to about 1m spread. Yellow flowers Spring & Summer. Well drained soils, full sun best. Drought & frost tolerant
<i>Hardenbergia violacea</i>	Ground	50	Variable trailing/climbing to ± upright plant. Spread about 2m. Purple pea flowers late Winter & Spring. Well drained sunny to part shade.
<i>Juncus pallidus</i>	Ground	10	Robust rush for wet areas, tolerates extended dry periods. Fl. Oct to Jan, pale green to straw coloured. Good bird & insect habitat. Sun to semi shade. Clay to loamy soils.
<i>Linum marginale</i>	Ground	80	Slender perennial to 60cm, small intensely blue flowers Spring & Summer. V. hardy, free draining soils. Full sun to part shade
<i>Lomandra glauca</i>	Ground	3	Tufted perennial to about 50cm. Leaves glaucous. Separate male & female plants. Free draining soils, sun to light shade. Can be cut back hard to rejuvenate plant.
<i>Lomandra longifolia</i>	Ground	33	Forms tussock to 70cm H, fragrant flowers in Summer. V. hardy, most soils & aspects. Useful for soil stabilisation.
<i>Poa labillardieri</i>	Ground	22	Densely tufted perennial with narrow greyish leaves. V. hardy, most situations with adequate water. Valuable in drainage/catchment areas to filter litter. Useful shelter for sheep & lambs
<i>Themeda australis</i>	Ground	70	Warm season tussock forming perennial, variety of well drained soils. Best in full sun
<i>Acacia buxifolia</i>	Shrub	3	Open erect shrub to 3m, golden yellow flowers Spring. Free draining soils, full sun to part shade
<i>Acacia falcata</i>	Shrub	10	Erect tree like shrub to 4m. Very hardy, tolerates part shade, Cream flowers early Winter.
<i>Acacia fimbriata</i>	Shrub	12	Erect tree like shrub to 6m. Rocky/sandy soil, often near streams. Fl. Winter – Spring.
<i>Acacia melanoxylon</i>	Shrub	43	Shrub or tree 6-30m, moist soils at higher altitudes, prone to borers in warmer areas, useful timber
<i>Atriplex nummularia</i>	Shrub	24	Handsome shrub to 3m x 2m. Hardy plant for hot well-drained situations, usually heavier soils
<i>Correa alba</i>	Shrub	60	Rounded shrub to 1.5m x 1m Flowers white, mostly Winter. Well drained sunny location. Prune annually to maintain shape
<i>Correa</i> 'Dusky Bells'	Shrub	57	Small rounded shrub, dusky crimson to pink flowers. Well drained soils, tolerates some shade, sun best
<i>Correa glabra</i>	Shrub	40	Rounded shrub 2m x 2m. Green bell shaped flowers in Winter. Well drained soils in half shade.
<i>Correa reflexa</i>	Shrub	14	Variable shrub, upright or spreading. Fl colour greenish yellow to deep red with yellow tips. Fl Winter. Well drained soil, full to 3/4 sun
<i>Eutaxia obovata</i>	Shrub	2	Rounded shrub 1m x 60cm. Flowers yellow & red, Spring. Good drainage essential. Frost & drought tolerant
<i>Grevillea lanigera</i>	Shrub	35	Prostrate habit 20-40cm x 1-2m Flowers red & cream, late Winter – Spring, well drained soil in full sun
<i>Grevillea juniperina</i> 'New Blood'	Shrub	5	Groundcover 0.25m x 1.5m. Orangey red flowers Autumn to Spring. Well drained sunny location
<i>Grevillea</i> 'Sunrise'	Shrub	6	Small compact shrub, apricot fl. Most of year, frost & drought hardy. Full sun, well drained soil. Prune after flowering
<i>Grevillea</i> 'Winparra Gem'	Shrub	2	Dense shrub to 2m x 3m. Orange-red flowers Autumn to Spring. Drought tolerant, relatively frost hardy. Sandy or clay soils in open sunny position
<i>Hakea</i> 'Burrendong Beauty'	Shrub	24	Spreading shrub 1.5m x 3m Flowers pink & white Autumn and Winter. Well drained sandy loam, tolerates some shade and light frosts
<i>Melaleuca armillaris</i>	Shrub	10	Large shrub to 5m, fast growing screen plant. Fl white Spring/Summer. Full sun, most soils. Prune annually to maintain dense habit
<i>Rhagodia parabolica</i> 'Grey Edge'	Shrub	9	Shrub 1.5 x 1.5m. Drought & mostly frost tolerant. Soft grey foliage, small red or pink berries. Well drained soils full sun to part shade. Prune to maintain dense habit
<i>Rhagodia spinescens</i>	Shrub	34	Variable shrub, upright or spreading. Sunny position, most soils
<i>Westringia</i> 'Winyabbie Gem'	Shrub	40	Fast growing compact shrub 1.3 x 1.5m. Blue mauve flowers most of year. Most well drained soils, full sun to part shade
<i>Casuarina cunninghamiana</i>	Tree	81	15-30m, naturally along watercourses. Reliable in damp or well drained soils
<i>Eucalyptus albens</i>	Tree	7	8-25m, various fertile soils on gentle slopes
<i>Eucalyptus camaldulensis</i>	Tree	40	To 35m, deep rich soils close to permanent water. Naturally at low to mod. altitudes
<i>Eucalyptus mannifera</i>	Tree	5	To 20m, attractive powdery white bark, red patches in summer. Naturally on poor shallow soils. Subject to branch drop. Good for hollow formation
<i>Eucalyptus melliodora</i>	Tree	30	Spreading tree to 30m, often moderately fertile sandy or alluvial soils, lower slopes
<i>Eucalyptus microcarpa</i>	Tree	30	To 25m, loamy soils of moderate fertility. Lower slopes & plains
<i>Eucalyptus polyanthemos</i>	Tree	6	To 20m, usually light shallow soils, sometimes deeper loams
<i>Eucalyptus sparsifolia</i>	Tree	2	Slender stringy barked tree to 20m. White to cream flowers late Summer. Shallow soils of low fertility
