

RCS Grazing Clinic

Understand grass growth

Refresh the basics

Manage your time and system better

The RCS Grazing Clinic is a practical hands-on workshop that develops your skills as a grass manager.

This power-packed two and a half day clinic will have you walking away with the confidence and practical know-how to go home and begin implementing.

- ✓ **Practical knowledge** – get the latest on cheap fencing, property layout, water design and moving stock. Understand how to assess rest period and calculate graze period, while accurately matching stocking rate to carrying capacity. See and learn the decision making processes **in the paddock**.
- ✓ **Control your grazing outcomes** – through the practical application of the principles, active use of the grazing chart, good use of planning tools including MaiaGrazing and good property design for this century.
- ✓ **Refresh the basics** through understanding the 6 essential grazing management principles. Develop the skills to monitor and record changes, understand how to adapt to seasonal and climate variability and develop strategies for profitable property planning and overall improved grazing management.

The course has a complete focus on implementation. We deal with the “real life stuff” that actually counts when it comes to getting the most out of your land, livestock and business.

“Good overview of soil health principles with an outline of regenerative farming principles.”

– Paul Serle, Mt Gambier SA

“A wake-up call for me. I can now feel more confident going forward in a very tight time.”

– Peter Davis, Cargo NSW

“Very inspiring whilst keeping it fully implementable for all operations, large and small.”

– Wayde O’Sullivan, Bowen QLD

Orange, NSW: 16-18 November 2021

Adaptive Plan Grazing Workshop Participants: \$935 incl GST
